# DEVON & JONES® crownlux PERFORMANCE™

## The Next Generation of Performance

### What's So Special About CrownLux Performance™ Polos?

You'll love our innovation in performance fabric technology. Devon & Jones® CrownLux Performance™ fabrics offer superior moisture-management, UV protection and travel-ready ease with an impressive professional look and feel.

### How Did We Do It?

By using superior fabrics showcasing key trends such as soft mélanges, cotton hand-feels and performance aspects, our quality and innovation are second to none. And it's in our signature corporate styles like the CrownLux Performance™ Plaited Polo family on pages 30-33, where we flipped the script on fabric engineering by knitting strong, smooth wicking polyester on the outside and plaiting it to soft-as-cotton wicking blend on the inside. The result? An incredibly luxurious fabric with the performance features you demand and softness you want next to your skin.

### Luxury, Comfort & Performance in One

Complete your look with our CrownLux Performance™ dress shirts on pages 124, 125 plus knits and layering pieces on page 87. They are the right balance of comfort and performance. And don't forget to add in a CrownLux Performance™ cap on page 379, with a special stretch fabric for hours of comfortable wear.

## Utk SubDown™

UTK SubDown™ is a revolutionary insulation technique that mimics the thermal qualities of down, using an easy-care material that is more hypo-allergenic.

Traditional polyfill batting requires thick, uncomfortable layers to achieve maximum thermal protection from the cold.

UTK SubDown™ fibers mimic the physical dimensions of down and are blown into the garment channels just like down. The result is a lightweight lofty fill with more air pockets and the thermal retention of 600 fill down.

UTK SubDown™ is the ideal in "warmth without weight" insulated garments.

## Utk Hydropel™

UTK Hydropel™ technology adds superior water-repellent functionality to fabrics.

North End® utilizes UTK Hydropel™ technology in many ways, including seam-sealed waterproof garments for severe wet weather conditions, water-resistant fabrications with a built-in membrane for enhanced wind protection, or a simple DWR (durable water repellent) finish on a lightweight shell. Whatever the level of weather protection needed, North End® has a solution.

## UTK Hydropel™

UTK Hydropel™ technology adds superior water-repellent functionality to fabrics.

North End® utilizes UTK Hydropel™ technology in many ways, including seam-sealed waterproof garments for severe wet weather conditions, water-resistant fabrications with a built-in membrane for enhanced wind protection, or a simple DWR (durable water repellent) finish on a lightweight shell. Whatever the level of weather protection needed, North End® has a solution.

UTK CeramiTech™ is a state-of-the-art technique that creates the ultimate in lightweight thermal protection.

The unique technology encapsulates ceramic powder in an emulsion that is then 'printed' on the underside of the fabric.

The UTK CeramiTech™ surface reacts with the body by absorbing & retaining body heat to keep the wearer warm.

UTK CeramiTech™ styles are great on their own or as a layering piece under a shell or puffer.

# Finding your perfect garment size is easy

## How to Measure

**CHEST:** Measure just under the arms, across fullest part of chest, around shoulder blades holding tape firm and level.

**WAIST:** Measure your natural waistline, keeping one finger between the tape and the waist.

**HIP:** Stand and measure around the fullest point of hips.

**SLEEVE LENGTH:** With arm relaxed at side and slightly bent, measure from center back neck, over the shoulder, down to the outer wrist.

**INSEAM:** Stand and measure from center crotch to bottom of ankle bone. (Please refer to specific style for garment inseam length.)

**UNISEX:** Men's medium is similar to ladies' large. Sleeve length will be about 1-1½" longer. Body of garment is not form fitting. Unisex medium is equivalent to men's medium through chest and sleeve length.

## TALL SIZES:

Men's garments have added length in the body and sleeves. Short-sleeves are 1" longer, long-sleeves and body length are 2" longer.
